CHURCH PEOPLE EXCORIATED

Richmond Pastor Says but One in Four Can Cast Vote.

SCORES DISLOYALTY

Minister in Alexandria Last Night Deplored Fact that About One-Half of His Flock Will Vote.

Richmond, July 6.—Church members who are too negligent of their rights, privileges and obligations to their country to qualify for the ballot were not handled with any too great consideration last night by Rev. W. J. Young, D. D., pastor of Centenary Methodist Church in a sermon on "The Higher Patriotism."

"I have been informed upon reliable authority," said Dr. Young, "that three in four members of our churches in Richmond are unable, for some reason or other, to vote. Their disqualification is largely due to their lack of regard for their rights and privileges, to their unfaithfulness to their obligation as citizens, to disloyalty to their country. It is a disgrace to the church."

Replying to those who protest against the discussion of social questions in the pulpit, Dr. Young remarked that such people cannot have read their Bible carefully. No where else, he said, can there be found more radical references to social problems and more severe condemnation of the arrogance of wealth than in the sermons of the prophets.

"This book is full of it," he said. "I repeat the man who criticizes pastors who discuss social problems in the pulpit has not read his Bible with any care."

A minister in this city in his sermon last night called attention to the fact that but a comparatively small percentage of the male members of his flock were qualified to vote.

QUIET FOURTH OF JULY.

Many Alexandrians Spent Day Picnicking—No Serious Accidents.

The Fourth of July was observed in Alexandria in a comparatively sane manner. The Mayor's interdiction of the use of explosives was generally observed. A few boys discharged saluting pistols at times, but the more ear-slitting reports were conspicuous by their absence.

No serious accident resulted during the day. A small boy residing in the southwestern section of the city procured a pack of firecrackers which he placed in his bosom. He was lighting one at a time when the pack became ignited. The boy's clothing was soon burning, but by the prompt action of members of his family, who tore the garments from him, the boy escaped serious injury, although he was painfully burned on the breast.

CONVICT SHIP "SUCCESS."

Historic Vessel is Going to Philadelphia to be Fitted Out for Pacific Cruise.

The old British convict ship "Success," which has been lying at the Seventh street wharf, Washington, for the past month, is about to leave.

More people have visited the "Success" in Washington than in any city in the United States in which the old floating prison has yet been exhibited, with the one exception of New York.

This is the last week that the vessel will be seen in Washington and at the end of it she is to cast off for Philadelphia, where she will be provisioned and refitted for her coming voyage to San Francisco, where she is to be stationed during the Panama Canal Exposition.

NOTICE.

The Committee on Site for New Hospital invite those having property suitable for this purpose to submit their proposition in writing on or before Saturday, July 11th, 1914.

NEWS OF THE DAY.

Theodore Roosevelt has resigned from the editorial staff of the Outlook.

Lawrence Butler and John Sullivan, each 13, died yesterday in Chicago of burns caused by exploding fireworks.

Several persons are reported to have been killed and many injured in a street car collision at Macon, Ga., last night.

Fifteen persons were drowned when the gasoline launch Superb, capsized in the Lynn Canal, Alaska, Saturday morning.

Reports say that 1,000 persons have been drowned in the West River floods, which this year are worse than usual, and that deaths from starvation in the affected districts have been numerous.

Nine killed and a score injured, of which three probaly will die, is the list of casualties caused by automobile accidents in several parts of the country yesterday.

Dr. Edwin Carman, in whose office at Freeport, N. Y., Mrs. Louise Balley was murdered last Tuesday evening, was shot at three times last night as he drove in his automobile through the town of Baldwin. None of the bullets struck him.

Three members of a fishing party of four men were drowned in the Farmington River at Poquonock, Conn., yesterday, when their boat was capsized. The tragedy was due to the determination of one of the men to commit suicide.

Sholl Mannings, colored, killed eight other colored men Friday at Branchville, Texas, with a short-handled axe because he suspected they had charged him with horse theft.

Two women were burned to death and three other persons were fatally hurt Friday in an incendiary fire in an apartment house at One Hundred and Twelfth street and Fifth avenue, New York.

Dr. A. A. Sanders, Sr., of Orville, Ohio, was killed, his wife, his son, A. A. Sanders, Jr., and the son's wife, were injured when their machine jumped over a forty-foot embankment and turned a somersault Friday.

Two brothers, named Marteus, engaged in a fight with another man at Chesapeake Beach, Md., yesterday, during which the latter is alleged to have drawn a knife and to have fatally stabbed one of the brothers. Marteus died in a few minutes.

The blind eyes of a baby boy raised stonily to a flickering candle light drove Bettina Tedesco to a deed of revenge in Chicago Friday night. With her own hands she shot her husband down, pulling the revolver's trigger till it spoke no more, and then went back to the cradle of the child with the seared and sightless eyes.

Even the small paper cap that does not come under the stern eye of the law has its dangers, as revealed by an accident that occurred to James Ervin, 10 years old, son of Arthur J. Ervin, a contractor of Baltimore Friday. Young Ervin suffered the loss of a thumb, an index finger and temporary eyesight when the caps exploded.

The bodies of H. F. Bennet and two unidentified women were found in a swamp at East Point, a suburb of Atlanta, Ga., early Friday. Wounds indicated that all three had been shot. There were indications that Bennett killed the two women with a shotgun with which he ended his own life.

Search of the ruins of the tenement house at 1626 Lexington avenue, New York, resulted in the discovery today of the body of Carl Berg, the fourth victim of the bomb explosion, in which Arthur Caron, Carl Hanson, and Mrs. Mary Chavez, lost their lives. Caron, Hanson, and Berg are said to have been making bombs for use in an I. W. W. demonstration today at Tarrytown, in behalf of the thirteen I. W. W. leaders who are to be placed on trial on charge of riotous conduct in connection with the "mourning" campaign against John D. Rockefeller.

CHARGES HIS WIFE WITH INSANITY

Husband of Former Helen Morton Asks for Investigation.

WEDDED IN VIRGINIA

Sudden Marriage of Young Woman to Roger Bayly Several Weeks Ago Caused Much Surprise.

Chicago, July 6.—Mrs. Helen Morton Bayly, who, as Miss Helen Morton, created a nation-wide sensation a month ago when she married Roger Bayly, well known among Washington and Virginia horsemen, after she had eloped to Delaplane, Va., near Mr. Bayly's farm, is to be adjudged insane, if the Du Page county authorities listen to the pleas of her husband of a month.

According to a story made public today, a daper young man walked in the county clerk's office at Wheaton today and asked to speak to Clerk Lawrence.

"I want to file a petition asking that my wife be adjudged insane," he said. He presented a petition drawn in legal form.

"What's the name?' the clerk asked. "Roger Bayly."

"Where do you live?"

"I am living with my father-in-law, Mark Morton, of Wheaton, was the answer.

She is Helen Morton, who was married to Bayly about a month ago.

The petition was stamped in the routine fashion of the clerk's office.

In less than an hour County Clerk Lawrence, County Judge Clark, State's Attorney C. W. Hadley and Dr. A. B. Connor, of Wheaton, accompanied by two other physicians, drove in an automobile to the guarded gateway of the Mark Morton residence a few miles from Wheaton. They were met by Bayly nad Mr. Morton.

The guards at the gate were told to permit the party to pass. Mrs. Helen Morton Bayly was called in. She answered some questions. How she answered only the officials and physicians know, and none of them would talk about the visit.

Today in the Du Page county courthouse at Wheaton, County Judge Clark will hear the report of the physicians and their recommendations.

These are the questions:

Is Helen Morton Bayly insane.

Why did her husband ask for the examination.

Was the inquiry asked to protect her property interests?

Did Bayly ask the inquiry on the suggestion of Mark Morton, millionaire father of the young woman?

In Illinois there are three courses open to the county judge if a commission of physicians or a jury of citizens adjudges a man or woman insane. The person may be sent to a State institution; to a private sanitarium, or paroled to some member of the family who will be expected to care for the afflicted member.

BROKE BOTH LEGS

Colored Resident of This City Jumps from Hospital Window.

John Green, colored, who for many years has been employed by Readon & Grimes at the foot of Cameron street, became ill recently and was sent to Johns Hopkins Hospital, Baltimore, where he was to undergo an operation . A few days ago he jumped from a window of that institution and broke both of his legs.

Death of Rabbi Levi.

Akron, Ohio, July 6.—Stricken with hemorrhage of the brain, Rabbi Benjamin Levi of Utica, N. Y., was carried from the pulpit of the Jewish Synagogue ten minutes after he had opened his sermon. He succumbed an hour later.

He had greeted members of the congregation upon his arrival with the pahtor, and appeared in a happy mood. Suddenly he collapsed and was unconscious when picked up.

MOOSE PLAN OUTING

Elaborate Arrangements for Excursion Next Monday.

The various committees in charge of arrangements for the annual excursion of the Loyal Order of Moose to Marshall Hall next Monday are putting the finishing touches to their labors with the result that it bids fair to eclipse all previous attempts and in addition be the biggest affair of its kind this season.

Up to the present time the sale of tickets has more than exceeded expectations. The comfort of those who make the trip will receive special attention. Free ice will be distributed to all and an important program of athletic events will occupy the entire day. Arrangements have been made for an early boat to leave Marshall Hall at 8:30 o'clock at night for the accommodation of mothers who wish to get their children back earlier in the evening. A later boat will leave at 10:30 o'clock to bring back those who desire staying until a later hour and enjoy the dancing.

The boats for Marshall Hall will leave Alexandria at 10:15 A. M., 2:45 P. M. and 7:15 P .M. The two Alexandria bands will accompany the order on the excursion, one leaving on the afternoon boat and the other on the evening boat. It is planned to provide the pleasure-seekers with music, going and coming, and also on the grounds. Ample accomodations will be afforded to handle the crowd who take the evening boat.

The Loyal Order of Moose Lodge from Washington will also make the trip and part of the athletic program will be competitive contests between members of that lodge and the local lodge. However, the contests will be open to non-members of the Moose lodge and all will be given an opportunity of getting in on the generous prize list to be awarded to the winners .

PIPE CRACKER FATAL

One of Makers Killed, Other Loses Arm in Explosion.

Towanda, Pa., July 6.—One dead and one crippled for life is the summary of Fourth of July accidents in Bradford county. Harry Wagner, aged 32, died last night in the Packer Hospital at Sayre, and in the same institution, Clarence Ferguson, aged 22, submitted to the amputation of his left arm at the elbow.

The two men improvised a giant firecracker from a section of iron casting. This they loaded with railroad torpedoes and other explosives. While they were adjusting the cap and fuse, an explosion occurred and Wagner's body was tornopen. He lived seven hours. Ferguson, who was holding the casing, lost his left hand.

Several other men, standing near by, were painfully but not seriously injured.

DICTATOR SENDS HIS FAMILY AWAY

Pullman Trains Carry Sons, Daughters and Mother-in-Law.

MAY FLEE HIMSELF

Yellow Flags in Mexican Capital Yesterday Prove Puzzles to Foreigners in the City.

Vera Cruz, July 6.—Fleeing before Mexico City's impending war storm, three Pullman loads of Huerta and Maas family members have gone to Puerto Mexico, according to refugees arriving here today.

Aboard the "flight special" were President Huerta's mother-in-law, over 90 years old, two of Huerta's daughters nad two sons, and Generals Joaquin and Mario Maas and former Minister Moheno, of the Huerta cabinet.

The refugees predict that the dictator under some dignified pretext will prepare soon for flight to a foreign land with his wife.

No explanation was offered for the distribution of mysterious yellow flags which residents of the capital city waved yesterday in the streets, shouting "Viva Peace" and "Viva Americans."

Extra editions of the government newspapers, proclaimed that peace had been made with the "gringoes."

Mexico City, July 6.—Elections for President, Vice-President, Deputies and Senators were held yesterday in that portion of the republic controlled by the Huerta Government. In Mexico City there was almost a complete abstention from voting and indifference was manifested everywhere.

General Huerta appeared to be a favorite candidate for the Presidency and General Blanquet, the present War Minister, for the Vice-Presidency.

President Huerta, it is reported, received virtually a unanimous vote of confidence. The returns indicate the re-election of all present members of the Chamber of Deputies and the Senate.

The highest vote in many years was cast both in the capital and nearby towns.

BOMB BLOW SEYES OUT

Tailor Who Picked Up Explosives Badly Hurt and Brother Slightly.

New York, July 6.—Meyer Lehrman and his brother Isador, tailors, narrowly escaped death yesterday when Meyer picked up a bomb with a burnig fuse in front of No. 402 Marcy avenue, Williamsburg. The bomb exploded with a roar that could be heard for several blocks and threw both men to the sidewalk unconscious. The bomb was round, and weighed about one and a half pounds.

The men were taken to a hospital, where it was found that three fingers his right eye severely lacerated and of Meyer's right hand were blown off, the sight destroyed. Isador's face and neck were lacerated .

The police cannot account for the bomb being in the neighborhood. There is a small colony of Italians three blocks from the scene of the explosion.

LICENSE TAX FOR CHARITY BAZAARS

Richmond City Council Will Consider Ordinance to This End.

DEALERS COMPLAIN

Movement to Compel License Taxes from All Such Enterprises May Spread Over Commonwealth.

Richmond, July 6.—Charity bazaars, church ice cream fetes, and restaurants operated for a day or two at a time in some worthy cause, will be required to pay a city tax for the privilege of doing business if an ordinance that comes up for passage by the Common Council tonight becomes law. The measure has already been approved by the Finance Committee, and has the support of many individual members. Should the measure be adopted, the movement to such entertainments will, it is believed, spread in the State.

The immediate inspiration of the ordinance, it is said, is the charity restaurant business, which during certain seasons of the year—particularly about Christmas time—assumes respectable proportions. Complaint is made by the regular restaurants, which pay a license to do business and maintain establishments at a high fixed expense, that the charity restaurant enterprises make serious inroads in their business, subjecting them to a competition that is not altogether fair.

Under the provisions of the pending ordinance an occasional restaurant of the charity type, as well as all other enterprises furthering charitable ends by the sale of food or merchandise, will be taxed $10 a year. Permits will be issued also for periods less than a year, but no license is to cost less than $2.50. A $2.50 license will permit the particular church or society holding it to conduct a charitable enterprise of the kind described for a period of three months. The significant clause in the ordinance reads:

"All societies and committees prerepresenting churches or other religious or charitable institutions, before offering to sell or selling any article of clothing, furniture, food, confectionary or article of merchandise within the city of Richmond, shall obtain a license from the Commissioner of Revenue of the city of Richmond, for the privilege, and shall be liable to, and pay, an annual tax of $10."

The language of the ordinace is general enough to make it apply to all charity enterprises of whatever nature. While the quarterly tax of $2.50 is nominal, it will apply without distinction to Sunday School fetes at which the sale of ice cream and pastry is the chief source of income, rummage sales, and elaborate bazaars.

LIGHTNING STRIKES DANCER.

Bolt Causes Panic Among Merry Makers at Marshall Hall.

Struck by lightning as she just finished the maze of a tango dance in the pavilion at Marshall Hall Saturday night, Miss Nellie Arnett, aged 18, lies at Emergency Hospital, Washington, in great pain. Her left side is partially paralyzed by the shock.

A flash of electricity, followed by a loud clap of thunder, picked out the young woman from a great holiday crowd of merrymakers. Entering her body at the left wrist, the current benumbed her senses, and for a time it was thought that the stroke would be fatal.

She was hurried aboard the steamer Charles Macalester and taken to the Seventh street wharf in Washington, where Dr. Ready and the Emergency Hospital ambulance wer waiting. Taken to the hospital, the surgeons worked over her to allay the great pain, and shortly after midnight she was relieved to such an extent that sleep was possible.

FINED FIFTY DOLLARS.

Police Arrest Negro Charged With Dispensing Whisky on Sunday.

Sergeant Wilkinson and Officer Kern yesterday arrested a negro named Burnett Parker for selling whisky on Sunday. Parker was brought before the Police Court this morning when the material witness, a colored man, testified that he purchased a half pint bottle of whisky from Parker for which he paid twenty-five cents.

Parker denied that he sold the liquor, and said the witness came into his house on Henry between Princess and Oronoco, and helped himself by filling a half pint bottle from a jug on the table. He said he received no money for the whisky. The officers, however, testified that they found the quarter on the table.

A glass jug, half full of liquor, was found in the house. Parker was fined fifty dollars.

The annual meeting of the Alexandria Automobile Club was held at 8 o'clock Thursday night in the rooms of the Chamber of Commerce, with a number of members present. The election of officers was held and resulted in the re-election of all of the old officers of the association, consisting of Geo. D. Hopkins, president. Wm. H. Helmuth, vice-president; W. A. Moore, Jr., secretary; G. Washngton Lewis, assistant secretary; Harry D. Kirk, treasurer. Board of Governors, George D. Hopkins, W .H. Hellmuth, W. A. Moore, Jr., G. W. Lewis ,H. D. Kirk, C .C. Lamond, A. M. Remschel, Harry Hammond and Preston O. Cockey.

The attorney of the association, G. Washington Lewis, made a report on correspondence he had held with the representatives in the Legislature and the Virginia Automobile Association concerning proposed legislation, which would affect the owners and users of automobiles. He also reported that he had, on behalf of the association, urged the passage of one or more laws which would be of benefit to automobile owners, but which, however, were not enacted by the Legislature at the past session.

R. L. Myers, chairman of the Highway Committee, reported as to the posting with signs of various roads near the city and stated that there were a number of other roads which he intended posting with signs marked "To Alexandria." It was also reported that the association had been instrumental in securing the repair of a good deal of street, road work and railway crossings and that it had co-operated several times with the Alexandria County officials and others relative to repair of roads and construction of new roads.

Much interest was manifested at the meeting and on a whole the results were extremely gratifying. Each member present at the meeting pledged himself to interest as many owners of automobiles as possible in the association that even greater results might be accomplished during the next year.

Excitement in the Vicinity of Prince And Payne Streets.

WE BEG TO CORRECT.

The Richmond Times-Dispatch has for some time been publishing an interesting column of events in Virginia fifty years ago. The items in this department are read with interest throughout the State, in fact, wherever the Dispatch goes.

Like all human productions, however, errors will necessarily be made. In last Friday's list of happenings, among other items from the Dispatch of July 1, 1864, appears the following:

"Edgar Snowden for a long time editor of the Alexandria Gazette, died in that city last Wednesday."

The venerable editor of the Gazette did not die until 11 years later, Friday, September 24, 1875. The premature announcement in the Dispatch of his decease in 1864 brought forth eulogiums from practically all Virginia papers. The Virginia Sentinel, published in Alexandria by the Messrs. Smith up to the breaking out of the war, had been removed to Richmond. It was profuse in its eoniums upon the supposed deceased editor in chief of the Gazette.

Snowden and the Smiths represented political camps always in open hostility to each other. The Sentinel was Democratic and supported Breckenridge and Lande for the Presidency in 1860, while all connected with the Gazette were advocating Bell and Everett, the Constitutional Union candidates, which party carried Virginia in the election of 1860. Duels on paper between the rival knights of the quill were often in evidence, although the editors were socially good friends. There was but one time when conditions became serious between them and that was three years before the outbreak of the Civil War, when the elder Snowden, against his protest, was pitted against William Smith, generally known as "Extra Billy," for Congress. There was a split in the Democratic party at that time, and it looked as if Snowden would win under these conditions. Smith, however, was successful by a small plurality.

At this time something appeared in the Sentinel which was magnified into undue proportions by the Snowdens, and one of the editors of the Gazette went after the writer, while in a bellicose state of mind. Smith, by his coolness, prevented what might have proven a serious affair.

This unfortunate incident soon blew over, but Snowden could never again be induced to appear in the political ring.

When the announcement of the death of the Gazette's senior editor was made in Richmond in 1864 the Sentinel spoke eulogistically of the elder Snowden, and referred to the above incident. Snowden, when he read it, smiled and said: "Every man does not live to read his own obituary."

TURNED OVER TO COUNTY.

Negroes Arrested on Street Car Saturday Night Held by Alexandria County.

William A. Parker and Beverly Tyler, the two negroes who were threatened with a lynching by the passengers of a Washington-Virginia Railway train Saturday night were turned over to the Alexandria county authorities yesterday and are being held in jail at the court house. It was thought yesterday that they would be brought to Alexandria and Justice Caton issued a warrant for their arrest when it was found that they had been taken in charge by county officers at the request of Crandall Mackey, commonwealth attorney.

The trouble in which the men were implicated occurred on the train leaving here at 7.15 o'clock Saturday night.

According to the story told by Conductor William Griffith, Jr., and passengers, Parker seated himself beside a white woman, ignoring the law which provides separate accommodations for the races. Although evidently indignant the white woman addressed no objection to Parker.

Conductor Griffith, however, told Parker he must surrender his seat. He told him why, citing the law.

"Why, din't she go to the front of the car." Parker demanded.

There were no vacant seats forward. The conductor told Parker this, and that the young woman was entitled to remain in the seat she entered the car. He insisted that Parker move.

Parker and Conductor Griffith were soon scuffling. Although the conductor is a small man he displayed pluck.

In the midst of the melee Parker pointed a revolver in the conductor's face, according to passengers. Griffith, grabbing the weapon, managed to break the pistol and empty the cartridges to the floor.

Passengers then joined in the fight. Parker was knocked down and beaten and kicked. One of the passengers said something about a rope and knife.

"I'd like to cut his head off," said an excited man. Others thought a severe beating would do.

The car was stopped at Arlington Junction, where a rope was procured. Parker was securely bound.

At the Highway Bridge Parker was taken from the car, turned over to the police and taken to the South Washington police station. A telephone message was sent to the first precinct station requesting that policemen meet the car and take off another passenger.

The police of the first precinct understood that the man they were to arrest was bound with a rope. Captain Peck and Sergeant Lohman took several patrolmen to the railway station to meet any necessity of the situation.

A well dressed and quiet colored man, who stepped from the car, was pointed out as the man who had handed Griffith the pistol. He was identified as Beverly Tyler, driver for a Washington beef company.

The wife of Tyler was with him. She had been visiting friends in Alexandria, he said, and he had gone there to bring her home.

Both Tyler and his wife, who went with him to the police station, expressed surprise when the charge was made that the husband had handed Parker the weapon.

"I didn't know the man," he said, "I did not have a pistol to give him."

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework.

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient. "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. F. RICHARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

FOURTH OF JULY HORRORS.

Ten Years' Independence Days Have Resulted in 36,831 Killed, Injured.

Richmond, July 6.—Figures just compiled by the State Board of Health as a warning against the "insane Fourth" show that Independence Days' explosions during the last ten years have resulted in more injuries than all the campaigns of General Villa in his triumphant march from Juarez to Torreon and Zacatecas.

In its special warning the board reprints from the Journal of the American Medical Association the list of killed and injured in celebrating the Fourth for every year since 1904.

"These figures show that not less than 36,831 persons have been killed or wounded in celebrating the Fourth —every one of whom was a victim of somebody's carelessness," says the bulletin. "It will be observed, also, that since the record year 1912, when the newspapers and health authorities of the country united in a nation wide campaign, the figures have risen again by more than 1,000.

More than 5,600 persons were killed or injured on July 4th, 1908.

"The casualties are particularly regrettable when it is remembered that they are not only needless, but occur chiefly upon boys and young men. Premature explosions often blind for life young men who are at the beginning of a career and are changed by their folly from producers to dependents. Loss of limbs, of fingers and disastrous burns on the Fourth often reduce the efficiency of many hundred men.

"The only safe rule in dealing with fireworks is to leave them absolutely alone. They are dangerous at best, and in the hand of the reckless are a menace not only to themselves, but to pedestrians and bystanders. The board cannot too strongly urge upon parents the importance of absolutely forbidding their children the use of rockets, firecrackers, toy cannons, etc., on July 4th or Christmas."

Bridegroom Drowned.

Richmond, July 6.—Henry Steinbrecher, of 204 North Granby street, a bridegroom of seven months swam gaily to meet his wife coming to him in a motor boat on the James River, opposite the Richmond Yacht Club, Saturday afternoon at 6 o'clock, and while she tried vainly to reach him, was drowned in front of her eyes. The despairing young woman shrieked as her husband sank from sight, and attempted to plunge after him. She battled against her sister, Mrs. L. L. Kipps, and Raymond Turner, who was running the boat, and was restrained with the greatest difficulty from throwing herself overboard. Even after she had been taken into the clubhouse to be attended by a physician she endeavored to break away from her friends and to return to the river for the man she had so lately married. Finally she collapsed, and was taken home.

Washington, July 6.—Senator John W. Kern, of Indiana, denies knowledge that his friends were preparing a presidential boom for him for 1916.

Congressional enemies of President Wilson, whose ire has been aroused by the dictation of the Chief Executive in legislative maters, it is rumored have voiced their approval of the democratic senator, and are urging him to seriously consider himself a prospective candiate.

Pale, thin people are simply suffering from want of nourishment. They may eat enough, but their food is not properly digested and does them no good.

Samose, the remarkable flesh-forming food should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation so that when taken for a short time. Nature will soon assert her normal powers,and the food that is eaten will give strength and good flesh.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samose. The man who wants to be strong and well and gain health and good flesh, will find his desires accomplished by Samose.

Such remarkable results have followed the use of Samose that druggists, E S. Leadbeater & Sons, are willing to pay for the treatment if it does not give the desired results. They make this offer generally and want all who are thin,weak out of of health to get a box of Samose from them on those terms.

FATAL RESULT OF DISPUTE

Says Fatal Shot Was Fired in Self-Defense.

Norfolk, Va., July 6.—Dispute over the right of occupancy of the old Armstrong farm on Little Bay resulted in the death of George M. Woodward and serious injury to L. A. Watts Saturday afternoon. According to testimony at the coronor's inquest, Woodward attacked Watts with a blackjack, cutting him around the head seriously, and was about to hit him with a single tree when Watts fired three times with a revolver, one or two of the shots taking effect. Woodward was struck in the right arm and right side, but the same bullet may have made both wounds.

KILLED FOR HIS MONEY

Body of Russell Massie Found in Briar Patch, and Bullet Holes Tell Story of Murder.

Lynchburg, Va., July 6.—After being missed since Monday, during which time his friends began to suspect he had met with foul play, Russell Massie, a middle-aged man, was found a few days ago in a briar patch, about fifty yards from hs home in Amherst County, four or five miles from Lowesville, with two bullet holes in his body, one of which was near the heart.

Massie had been living on the farm of Albert Massie, his principal business being to look after extensive orchard interests, and it is said that he was known to have had $600 on his person when last seen. Robbery is believed to have been the motive. Bloodstains leading from the road to the patch of briar bushes led to the discovery of the remains.

Massie was unmarried.

TO USE AEROPLANE

Daring Experiment of Astronomer to Solve Scientfic Problem.

Boston, Mass., July 6.—From the precarious perch of a monoplane 20,000 feet above earth, Professor David P. Todd, of Amherst College will seek to solve a mystery of the corona of the sun that has baffled astronomers for ages.

The world of science is amazed at the daring and originality of the professor's scheme for photographing the sun's corona—those wonderful streamers of light radiating outwardly in all directions from the sun and visible only during the darkness of an eclipse.

Astronomers will assemble in Riga, Russia, next August to study the eclipse of the sun and there Professor Todd will carry on his experiments.

The mystery of ages which Professor Todd's photographs may solve is whether the great bands and streamers of pale light, some straight and some curved, proceed from the gigatic upheavals of vaporized metals and gases in the sun itself and are reflected to earth by comparatively cold gases or concrete particles forming the corona, or whether the light comes forth from incandescent material in the corona.

TURKS BAN HEBREW SIGNS.

Forbid Their Use on Dead Walls in Cities of Palestine.

Jerusalem, July 6.—The Turkish Government has issued orders against posting notices in Hebrew upon the dead walls of cities of Palestine. The action is believed to indicate concern on the part of the authorities over the remarkable revival of the Hebrew language. Although up to 30 years ago classic Hebrew was not ordinarily used by the Jews of Palestine, it is now the common language of tens of thousands. It is the medium of instuction in many schools, and newspapers, street car tickets and shopkeepers' signs are in Hebrew. It therefore is apparent that the authorities will have a hard time if they purpose to check the spread of the language.

The revival of the pure Biblical tongue, in a measure, has been forced on the Palestine Jews for reasons apart from the sentimental. Immigration from other parts of the world, particularly of the 13,000 Yiddish speaking Jews from Russia some years ago, made a common means of communication necessary. Yiddish is not understood by the native here, while all Jews know something of Hebrew.

Recovered from Lung Trouble—Now Insured

Insurance companies will not accept any one affected with Lung Trouble. When you know a man who has been afflicted and who later has been insured, such action means that the policy-holder must be in a very good state of health. Cases have been reported when Lung Sufferers, after taking Eckman's Alterative, a remedy for Throat and Lung Troubles, have successfully passed the medical test of insurance companies. Read this case:—

237 Dean St., Brooklyn, N. Y.

"Gentlemen: About a year and a half ago I noticed that my health was rapidly failing. I was troubled with night sweats, a severe cough and was very weak; having, in fact, absolutely no ambition whatever. About this time I consulted a physician, who told me my lungs were affected. Not satisfied I went to another doctor, who, after examining me, said that I was in the first stages of Lung Trouble. At this point I started to take Eckman's Alterative. The night sweats stopped almost immediately, my cough became looser and gradually disappeared. My weight is now 142 pounds and my physician has pronounced me perfectly sound—which, together with the fact that I have just been accepted by two different insurance companies for insurance, makes me sure of my entire recovery by Eckman's Alterative."

(Affidavit) W. E. GEE.

(Above abbreviated; more on request.)

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists

Cost of Efficiency.

Inefficiency is one of the prime causes of the high cost of living. If you pay a man 40 cents an hour for his work, and he loafs away two hours a day, which many do, you actually pay him $3.20 for $2.40 worth of work. And then to make up the loss you charge the 80 cents to somebody else, and he passes over the debt to other people. Thus one faithless man spreads wide the loss, while everybody recoups by charging him for his goods and for his time.

While shiftless work may make a demand for more work, it is at the expense of everybody else, including the worker. This is plain as a practical matter, but as a moral question it is easily discernable. Inefficiency is dishonest, and dishonesty is costly If a man is paid for work which he doesn't do, there is a loss that the man himself must make good in some way. He may not pay back that day, but he will some day in some way. If a man wastes the time for which he is paid, and thinks he makes by it, he is a fool.(Ohio State

LOCAL OPTION FAVORED

STATE-WIDE PROHIBITION OPPOSED

Dr. Stuart McGuire, Royal E. Cabell and Other Prominent Virginians Speak Their Views.

Before a Mass Meeting of several thousand citizens recently held in Richmond, some of Virginia's ablest men and deepest thinkers expressed themselves as against State-Wide Prohibition and favoring Local Option. Among some of the important points brought out in the speech of Dr. Stuart McGuire were:

"If I believed that State-wide prohibition would prohibit, then I would be for prohibition; but study and observation of prohibition in other States has convinced me that it does no good and, on the contrary, is a source of great harm."

LOOKING TO THE GOOD OF THE STATE.

"As a man who has the good of the State at heart, I viewed with apprehension and misgiving the passage of the Enabling Act at the recent session of the Legislature. I foresaw a bitter and acrimonious political contest, which would divide our people, and for a time I feared the movement might be carried to a successful issue on a wave of hysteria created by the activities of a number of honest, well-meaning, but misguided and misinformed, people. I feared that local option established and tested, and perfected by years of experience, would be abandoned, and that a new method might be adopted, which in my opinion, would disorganize the economic and moral life of many of our communities."

WOODROW WILSON STRUCK THE KEYNOTE.

"I am opposed to State-wide prohibition for political reasons. It is not democratic, and you have Woodrow Wilson's word for that. Local option gives the power to every community to decide for itself whether or not it will license saloons. If a majority of the voters in a community are opposed to saloons they are abolished. If a majority of the voters are in favor of saloons, they are licensed. It is thus left to each community to determine for itself whether it will be wet or dry, and, most important of all, when this matter is determined, the decision has back of it the sentiment of a majority of the people in a community and hence the law is effective. How different is it with State-wide prohibition."

DESTRUCTIVE OF THE PRINCIPLE OF LOCAL SELF GOVERNMENT.

"The wishes of certain sections may be totally disregarded and a city or county where a large majority of voters may wish to license the sale of liquor may be prohibited from carrying out their convictions of what is best for their own interests. This is destructive of the principals of the right of local self-government. It is not democratic and it is autocratic."

DR. STUART M. McGUIRE

PROHIBITION INCREASES TAXATION.

"If state-wide prohibition prevails, property values will fall and the income of the State from taxation will diminish and this deficiency will have to be made up by increase in general taxation. What the aggregate reduction of revenue will be to the State and cities will doubtless be told you by other speakers who are familiar with the facts and figures. This much I know: the loss will be so great that taxes must be raised or present appropriations to schools and for other expenses of government must be reduced."

OPPOSED TO PROHIBITION FOR PHYSICAL REASONS.

"I am opposed to prohibition for physical reasons. Wine, beer and whiskey are not in themselves, bad. Their moderate and judicious use is often beneficial. The demand for a stimulant is universal. In all ages and in all nations people have used stimulants as an artificial means to raise the condition of their physical and mental activity. The only countries in the world where alcohol is not employed are the yellow countries—Turkey, India and China—and, in those opium is used as a substitute. This tendency, this demand for a stimulant, is shown today in certain sections of the Southern States where the negroes, unable to secure the alcohol, take to the use of opium, cocaine and other more harmful poisons and injurious drugs."

BRINGS CONTEMPT UPON THE LAW.

"I am opposed to prohibition for legal reasons. It is an unwise ruler who imposes a law upon his people which he knows in advance will not be complied with, as it brings contempt upon all law.

"Prohibition will not prohibit the sale of liquor in a community where the people do not approve and endorse the law. Reason would lead this to be expected and experience has shown it to be true. Personal observation recently made in Memphis, Savannah and Atlanta, located in States that have adopted state wide prohibition has convinced me it is impossible to prevent the sale of liquor in a large city, and the best that can be done is to regulate and control the trade. In all the cities mentioned I found barrooms running openly, with the knowledge of the officials, in defiance of the law.

"I am a loyal Virginian; for the reasons given — political, financial, physicial and legal—I am convinced we should continue our present laws, which provide local option when desired by a community. Vote next September for local option in the country, and for restriction and regulation in the cities, which means vote against state-wide prohibition."—(Adv.)

TO STOP HER VISITORS.

Friends of Mrs. Angle Fear a Grilling Cross Examination.

Stamford Ct., July 6.—Friends of Mrs. Helen M. Angle, now held at police headquarters as a material witness in connection with the mysterious death of Waldo R. Ballou, are afraid that the police intend to submit her to a grilling cross-examination. To guard against this Mrs. Angle's father and several friends have been spending as much time as possible with the imprisoned woman. The police, however, have announced that the visiting privileges will be curtailed hereafter.

Chief of Police Brennan refuses to discuss the report that Mrs. Angle had made new revelations in connection with the mystery of Ballou's death.

It has not yet been decided when the inquest will be resumed. This depends on the outcome of Dr. Weaver's analysis of the stains on the clothing and other objects taken from Mrs. Angle's apartment.

Mrs. Angle suffered a severe attack of gastritis yesterday morning, but was relieved byprompt medical attention.

Thousands of Men Strike.

London, July 6.—The strike, which began in the Woolwich arsenal on Friday over the dismissal of one man, has spread with such rapidity that the great government gun factory is silent and practically deserted.

With such determination has the case of this one man been taken up that nearly 8,000 men have already ceased work, and from 5,000 to 7,000 others may be ipvolved today.

The trouble arose over the employment of non-union labor. The union's executive recently issued instructions that if any man was called on to take part in a job on which non-unionists had been employed, he should refuse to do it. The first man so to be called on was instructed to erect a machine on a concrete foundation, which, it is alleged was laid down by non-union men. He refused and was discharged, and the strike began.

BATTLE OVER $10,000,000

Man Who Left Vast Fortune but No Will Lived on 44 Cents a Day.

Houston, Tex., July 6.—Frank A. Ogden, who was found dead in a small poorly furnished room in a lodging house here recently, left an estate valued at more than $10,000,000, as shown by examination of his private papers by the administrators.

Ogden was miserly. One of his requirements was that his breakfast should not cost him more than 9 cents, his dinner not to exceed 20 cents and his supper not more than 15 cents. His living expenses were kept down to a maximum of $25 a month, even when traveling. He was 81 years old when he died.

When, after his death a battered old trunk in his room was opened it revealed memoranda indicating valuable properties. The proper authorities were notified, a safe and a deposit box was opened, and there came to light a mass of evidence of the vast estate which the man had left. He had been dead two days before his identity was established.

No will has been found.

Ogden was reared on a farm in Central Indiana. He and his brother, with a small sum that they were able to raise, went to Chicago and invested it in property just after the great fire. He afterward acquired his brother's property interests. He still owned some of the original holdings that he bought in Chicago in those early days.

Farmer Shoots His Wife.

George Hart, 46 years old, a farmer, fired a charge of bird shot into his young wife's back while on his father's farm near Berwyn, Md., yesterday afternoon. Holding his father and his wife's brother at bay, he escaped into the woods.

The wife, Nellie, who is but 27, was brought to Casualty Hospital, Washington, where an operation was performed. Her left kidney was said to be riddled with shot and her condition was extremely critical.

The shooting followed the wife's refusal to resume living with her husband, from whom she had been separated only a few days.

WOMAN KILLED BY LIGHTNING.

She Was on Her Porch With Her Husband And Family

Frederick, Md., July 6.—Seated on the porch of her home near Petersville, with her husband and seven children, Mrs. Thomas Harder was struck by lightning during a thunder shower yesterday afternoon and killed. The bolt struck her on the top of the head, burning her hair from the scalp and igniting her dress.

The same bolt struck a locust tree in front of the house and it is supposed that the electricity passed from the tree to the porch. Following the flash the woman fell from her chair, with her hair and dress in flames. Her husband put out the fire. Very little rain fell and the shower passed over in a few minutes.

Why Suffer from Rheumatism?

When relief from rheumatic pains may be had at so small a cost it is surprising that anyone should fail to avail himself of it. Joseph Copparelli, Canastota, N. Y., suffered intensely with pains due to rheumatism in his limbs for a long time A friend told him about Chamberlain's Liniment. One application relieved him wonderfully, and a few days' treatment effected a cure. Many others have found quick relief by applying this liniment. For sale by all dealers.
